
Top 20 of KEGG Enrichment
Inositol phosphate metabolism
Phosphatidylinositol signaling system
Mitophagy - yeast
Methane metabolism
Glycosphingolipid biosynthesis - ganglio series
Glycerophospholipid metabolism
Carbon metabolism
Various types of N-glycan biosynthesis
MAPK signaling pathway - yeast
Spliceosome
Linoleic acid metabolism
Aminoacyl-tRNA biosynthesis
mRNA surveillance pathway
Autophagy - yeast
Autophagy - other
Purine metabolism
Glycosaminoglycan degradation
Fatty acid biosynthesis
One carbon pool by folate
Basal transcription factors
